B-102, EARTHCON CASA ROYALE, BISRAKH JALALPUR, SECTOR-1, GREATER NOIDA WEST, UP, 201306

## SKILLS

### HTML

### CSS

### JAVASCRIPT

### JQUERY

### REACT

### REDUX

A curious person always ready to implement new stuff and extend my limits. Work and results inspire me. Seeking a challenging position in a technical role.

## Experience

### ● Software Developer (*Nov 2019 - Current*)

The Indian Express

- Improved performance of page on Google Page Insight score from 20 to 60+, which include in improving FCP, FMP, Page Load Time, etc
- Implemented microservices architecture for the continuous delivery of an application. Each application resides in a separate container along with the environment it needs to run.
- Worked on the implementation of ads, like lazy load the ads if its impression is not counted on load.
- Created ads panel for the AdOps Team through which they handle the implementation of ads through a given UI. And request only for those ads whose slots are defined on the page which helps in lowering ads Cost.
- Working on Personalization, which allows a company to segment its consumers and target them accordingly.

### ● Software Developer (*Jul 2018 - Nov 2019*)

HT Media

- Got my hands dipped in Reactjs, Redux, Javascript, JQuery, Django templates, unit testing using Qunit and Jest.
- Create exceptional UI / UX experiences leveraging Vue.js, Vuex, ES6 and SCSS
- Build development tools and re-usable components that catalyze the development of new features and functionalities.
- Interact with various data stores to present and persist data
- Cooperate with skilled developers, product managers, QA's, and designers to ship new components and features
- Direct impact on team processes by regular agile retrospectives
- Created modules for better code structure
- Improved web accessibility using WAI-ARIA to score 90+.
- Wrote Unit test cases for frontend that led to better handling of code at modular level.
- Implemented linters for better quality of code
- Implemented Unit test cases using Qunit and Jest around 250+ running test cases
- Worked on Government Project STEEL AUTHORITY OF INDIA (SAIL) and PUBLIC SECTOR UNDERTAKING (PSU).
